

We Are One

12 Stones

We walk alone in the unknown
We live to win another victory
Our sacred scars
Show who we are, it's time to face it

We are one
We are one
We are one
We will stand together

Number one
Number one
The chosen ones

We are one
We are one
We will fight forever
We are one and we won't tire

We walk alone in the unknown
We live to win another victory
We are the young dying sons
We live to change the face of history

So be afraid, it's the price we pay
The only easy day was yesterday
So hear our voice
We have a choice, it's time to face it

We are one
We are one
We are one
We will stand together

Number one
Number one
The chosen ones

We are one
We are one
We will fight forever
We are one and we won't tire

We are the bold united souls
We live to win another victory
Our sacred scars show who we are
And tell the story of our memories

Don't be afraid, it's the price we pay
The only easy day was yesterday
So hear our voice
We have a choice, it's time to face it

We are one
We are one
We are one
We will stand together

Number one
Number one
The chosen ones

We are one
We are one
We will fight forever
We are one and we won't tire

We walk alone in the unknown
We live to win another victory
Our sacred scars
Show who we are, it's time to face it

We are one
We are one
We are one
We will stand together

Number one
Number one
The chosen ones

We are one
We are one
We will fight forever
We are one and we won't tire

We are one
We are one yeah!

Number one
Number one
The chosen ones

We are one
We are one yeah
We are one and we won't tire

We are one
We are one yeah

Number one
Number one
and we won't tire

We are one
We are one yeah

Number one
Number one
and we won't tire
