

# We Are One

12 Stones

We walk alone in the unknown  
We live to win another victory  
Our sacred scars  
Show who we are, it's time to face it

We are one  
We are one  
We are one  
We will stand together

Number one  
Number one  
The chosen ones

We are one  
We are one  
We will fight forever  
We are one and we won't tire

We walk alone in the unknown  
We live to win another victory  
We are the young dying sons  
We live to change the face of history

So be afraid, it's the price we pay  
The only easy day was yesterday  
So hear our voice  
We have a choice, it's time to face it

We are one  
We are one  
We are one  
We will stand together

Number one  
Number one  
The chosen ones

We are one  
We are one  
We will fight forever  
We are one and we won't tire

We are the bold united souls  
We live to win another victory  
Our sacred scars show who we are  
And tell the story of our memories

Don't be afraid, it's the price we pay  
The only easy day was yesterday  
So hear our voice  
We have a choice, it's time to face it

We are one  
We are one  
We are one  
We will stand together

Number one  
Number one  
The chosen ones

We are one  
We are one  
We will fight forever  
We are one and we won't tire

We walk alone in the unknown  
We live to win another victory  
Our sacred scars  
Show who we are, it's time to face it

We are one  
We are one  
We are one  
We will stand together

Number one  
Number one  
The chosen ones

We are one  
We are one  
We will fight forever  
We are one and we won't tire

We are one  
We are one yeah!

Number one  
Number one  
The chosen ones

We are one  
We are one yeah  
We are one and we won't tire

We are one  
We are one yeah

Number one  
Number one  
and we won't tire

We are one  
We are one yeah

Number one  
Number one  
and we won't tire
