

Every face sing we had to happen, every  
face is you  
Every smile that I force on someone sends me  
to the edge  
Coffee breaks I take because, I need more  
time to clear the fuzz  
Take me back twenty first street  
Troubles times that I find myself in, double  
without you  
Such a lose that I try to replace sends me  
to the edge  
Living breaks I take because, I need more  
time to get a buzz  
Take me back twenty first street  
I think I'm losin', losin' my mind  
Just anyone means nothin's done just yet  
I need my time to heal  
Just anyone is next to none without  
The reasons I could feel - Just anyone  
All the times that we tried to make it  
Now those days are through  
All the times we were forced to fake it send  
me to the edge  
Coffee breaks I take because, I need more  
time to clear the fuzz  
Take me back twenty first street  
I think I'm losin', losin' my mind  
Just anyone means nothin's done just yet  
I need my time to heal  
Just anyone is next to none without  
The reasons I could feel - Just anyone  
Spending hours trting to find myself-  
Redemption, wrong direction  
No more power to control my - Isolation no solution  
Every voice that I know is not the same  
Every word taht I read calls out your name  
So many days looking for you but in vein  
A losin' game and I'm to blame  
Just anyone means nothin's done just yet  
I need my time to heal  
Just anyone is next to none without  
The reasons I could feel  
Just anyone - Just anyone means that I can't  
afford to face the facts  
Just anyone - Just anyone means that I can't  
afford to be just anyone
