

In the end, a new era beckons  
Settling the foundation of an infernal dimension of wrath  
A revelation strikes with new awareness upon the masses  
Veil of darkness unravel, a horrific sphere unfolds

An altering of the senses - to discover  
What is behing light, beyond celestial slavery  
Entangles the mind in dark waves, fiery & monotonous  
Deep is the well of dark mystery

The enlightenment of madness presents itself  
On the soil above a lower world  
In everlasting ebony shades of the damned  
Choirs of madness chant in agonny, as blood  
Flows furiously (through my veins)

Blurred visions - through a smoke-filled sky  
With fists clenched, I gaze on through the ugly  
The only right path

The surge of deconstruction casts light aside  
The summoning at last  
Deceiver - pioneer of this insight  
Consume what is of joy

Consume what is of joy!

And enless rage until we dance on the hypocrites' grave  
Step on the crucifix  
Ans speak the tongue of blasphemy

The shivery  
Crawling, freezing through the innards & up the spine  
The separating of this shell of flesh  
& a dark spirituality  
Do I believe?  
It believes in me
