

Crystal silence  
Upholding the law  
Of the tarnished dark clouds  
Thousands and thousands inflicted  
- Driven by them demons  
Their strong sudden impact  
- Wired directly to the (under) world below

Termination  
Of a million possessions  
Termination  
- Circulating in patterns  
Terminating  
A million possessions  
Terminating  
- In their own prosperity  
The Termination  
Of a million possessions  
The Termination  
- Brings the monster to time

Like spacestorms through centuries  
- Holding, wild and furious  
An eruption that no one can prepare for  
They persist for aeons  
Aeons after aeons

Termination - Circulating in patterns  
Terminating - In their own prosperity  
The Termination - Of a million possessions  
The Termination - Brings the monster to time

Forming bonds  
Temple of power  
Cosmo eternity  
As lightning breaks the silence

Despair, the mouth of fire swallows all  
Fear, of the commitment of the soul

Chalice of impure spirits  
For the incursion of all infernal adversary  
Every legion, congregation and sect  
The master of deceit  
And enemy of man's salvation
