

Heel on the Shovel

16 Horsepower

I'm diggin' you a shallow grave
An to the sun your face I'll raise
I'm diggin' you a shallow grave
One hundred buzzards buzzin'

I seen death hangin' from the tallest tree
Eyes closed no lookin' back at me
Ye they came an took him in the night
The one who kissed em was greed

O everyone will see
An everyone will know
Boy you reap what you sow
I'm diggin' you a shallow grave

An on your rotten bones I'll raise
Yellow daisies
For my true loves hair
One hundred buzzards buzzin'

I see death runnin' from his majesty
O lord where is the fear in me
In between your praying hands
You hold the skeleton key
