

Just Like Birds

16 Horsepower

Little Johanna girl of my prairie
Help me fill this house with living words
Further up and further in
Let them fly from our lips
Just like birds

All that dark woods from Pakistan
The glory the glory lodged inside
Strive to enter the narrow gate
To the fountain flowin' deep and wide

He will never leave you
My much afraid
He waits patient
In our prayers unprayed

Now stay close to me
In an amongst the trees
I'll carry your shoes child
You run an play beneath the eaves

Our faith will come by the hearin'
A whisper in the leaves
Listen Johanna hear his voice
In the drone of the bees

He will never leave you
My much afraid
He waits patient
In our prayers unprayed
