

Strong Man

16 Horsepower

The strong man he will kneel down
Whilst angels strip him of cloak and crown
Through bitter lips come vile breath
He is the last one to confess
There will be no pity for him
We must kill him where he stands
No there will be no mercy for him
Nor for any of his clan
Let there be no hesitation
Get a rope an make it quick
Each last breath come from his mouth
I will beat it out with a stick
Pray boy you've no reservations
The word will be carried out
He is the one who brought down the son
Let there be no doubt
There is power wonder workin' power
In the blood of the lamb
There is power wonder workin' power
In the precious blood of the lamb
He's seated on the right hand
