

Spinning and falling  
I'm lying down but still  
I'm falling and can't stop  
Moving and twisting  
The rooms spinning around  
And time won't stop

Swass the gweed  
When I want to  
Proberts still got time  
Shaved her puss  
Then we burned a few  
True shags  
Ain't hard to find

Dirty Mex is the origin  
Of the smoke you know see  
Split an ounce with my favorite friend  
Feel the warmth on one knee

Spinning and falling  
I'm lying down but still  
I'm falling and can't stop  
Moving and twisting  
The rooms spinning around  
And time won't stop

Buck has been there for all of us  
In many times of need  
Floating through the enchanted moat  
Drifting yonder are three  
Seek the relic of Remulak  
Uranus and beyond  
Herbal wizard waits for me  
We're getting high at dawn

When I'm near you  
I feel instincts  
When I'm with you  
I think of violence  
When I look at you  
I curse your soul  
When I think of you  
I lose control  
I lose control
