

Born To Lose

16

Lost, it is always on my mind
Hate, pick up the phone and hear me cry
Wrong, I've forgotten all my lies
Scared, now I've got nowhere to hide

Born to lose
Why can't I get away?

Lost, in the future and the past
Cursed, so how long does this last
Blind, it is what we fucking are
Truth, that I won't make it too far

Born to lose
Why can't I get away?

Remember the time
When I had control?
No

Why
Why can't I get away?

I got lost
I got hate
I got truth
I got lost
