

Tranquilized  
But not for long  
Stoned and poor  
All time is gone

Wading through thick tar  
White trash with open sores  
Body parts in a jar  
White trash with open sores

Double-barreled trauma

Nothing  
But negativity  
On my side of town  
And this black cloud  
Keeps following me around

Wading through thick tar  
White trash with open sores  
Body parts in a jar  
White trash with open sores

Double-barreled trauma

Pedophile

Something go my way  
Nothing goes my way

Double-barreled trauma
