

Cables And Wires

16volt

We like the fast vibration,
We like the face to face,
We like the pulsing square wave,
We like the thundering bass.

We like the hard distortion,
We like the 80HZ wound,
We like the oscillation,
We like the stereo sound.

Oh yes it is nice in this place
I could live like a king in outer space.
The only promise is a world of desire.
I fell in love with cables and wires.

I like the coloration,
I like the sonic design,
I like amplification,
I like the division of time.

And when you open your eyes,
It's so amazing to find
All your life you've been primed
To make a sequence so fine.

Oh yes it is nice in this place
I could live like a king in outer space.
The only promise is a world of desire.
I fell in love with cables and wires.

Oh yes it is nice in this place
