

Your colors clash
But you, you still act flash
Fall in love with me
And you know what a drag it is,
You know what a drag it is
Being with me

But maybe you should hang around
We'll feed the ducks and go uptown
Maybe you can take a chance on me
You can wear your yellow dress
We'll make a mess, they'll put the blame on me

Oh, and I just can't seem to get in touch with you (2x)

I'm not good, but at least I'll try
Your friends all say I'm a real bad guy
But you've not heard just what's been said, but you

Oh, and I just can't seem to get in touch with you (2x)

Maybe you should hang around
I'll hit the drums and make a sound
Maybe you can dance along with me
You can wear your yellow dress
I'll take it off and make a mess with me

You're rock & roll
but you, you're kind of old
Yeah, not as old as me
But you don't wanna dance with me
You don't wanna dance with me
So I dance with myself

Maybe you should hang around
I'll hit the drums and make a sound
Maybe you can dance along with me
You can wear your yellow dress
I'll take it off and make a mess with me

Oh, and I just can't seem to get in touch with you
(repeat til end)
