

# Coolin'

2 Live Crew

Coolin' in Miami one summer day  
Drivin down the streets along the bay  
My girls' hair's blowin' in the breeze  
Her skin's gettin' tanned 'cause it's 90 degrees  
I took her home and met the homeboys  
Before gettin' bored we'll avoid the noid  
Went to Opa Locka, jumped in Luke's jet  
To the Bahamas and Mixx said, "Bet"  
We landed in Naussau, when walkin downtown  
We met four females, all of were down  
Went to the beach on Paradise Isle  
We played water sports and had sex for a while  
Before we knew it it was time to go  
'cause the very next day we had a show  
We'll let the people see that 2 Live is rulin'  
(Now back to the crib where we'll be coolin')

Coolin' with the posse, playin' it hard  
Rollin' two deep as I drop the top  
Beams from the sun light up the city  
As I roll through sidin', sittin real pretty  
It's a hot summer day and I feel good  
So I turned up some music and hit the neighborhood  
Spoke to the brothers, sweatin' the ladies  
I bumped into my homeboy Ice in the Mercedes  
Went up on the ave. where they hustle real hard  
Skeezers on the side cold jockin' our cars  
Someone called my name, so I yoked it quick  
And kicked it to the girllies who was all on the tip  
As nightfall came I was still out there  
Havin' fun on the one, carefree without a care  
You say it, we can play it, I'm here for the choosin'  
Marquis is chillin' hard, coolin'

Livin' the life of the rich and famous  
We never had it so good, so who can blame us?  
Here's a toast to our success  
Break out the Dom 'cause we owe it to ourselves  
So let's find a hideaway in the Caribbean  
Sail the ocean like a long-shore seaman  
Goin' to the Islands to have some fun  
Hit the beach and take in a little sun

Feelin' the breezes of the cool winds blowin'  
On a mission, not knowin' where I'm goin'  
It's a free day, and I got free time  
And I'm loving every minute of this life of mine  
You see, the lady I choose must like to cool  
In a freak's cut bikini by the pool

Havin' good times, that's what we'll be doin'  
Like millionaires, stone cold coolin'
