

The Whammy

2 Skinnee J's

Look deep into my iris
Mysteries unfold beyond scrolls of papyrus
Your mind flips - the hieroglyphs are explicit
Ancient arts from other parts of existence
Scribes from the tribes of Hebrews and Nubians
Passed through to the true blue like cerulean
The source of my voice be the key to truly enhance
Now you dance to the trance that you be in
Excellent like dumpling - its fabulous
Heaven sent like the coming - miraculous
Ain't it somethin' how we do with gumption
It's a safe assumption that we get the party bumpin'
Small wonder that you're under my influence
It's over, I'm takin' over in increments
As I tighten in my vice like Miami
The super bad osu got you movin' to the power of the whammy
Get down, get down, listen to the sound
>From your earlobe to your frontal lobe the whammy's got ya bound
The power of suggestion's got you on your knees genuflecting
Dimensions arise before your eyes
Disguised, your new initials - DUI
You try to flex your force, influenced under mine
We spread to your head like infection
The ghost in my throat, tones and inflections make connections
Between resistant synapses
Your willpower snapses, we transmit like faxes
We vanquish the masses like Allies to Axis
You dances - you dances
You're tricked by the tricks you designed
The toungue is quicker than the mind
We'll bewitch you with rituals
We bring emerging energies, forming mass from individuals
With residuals the kid quits, but can he?
I'll hit him with the whammy
It's the whammy y'all
