

Break the Chain

2 Unlimited

Now it's time to break it
Come on Come On
Come on Come on
Break it down
I wanted to break your chain, Yeah
Make the right choice in life
You gotta do it now
You gotta to do it now
You gotta to Ah Yeah
You gotta Oh
2 Unlimited
Break it
Break it

Break the chain, break it for me
Free your spirit, set your soul free
Break the chain, feel it in your hands
Break the chain so nothing can hold us back

If you gonna break the chain, think of the main source (source)
Do your job and take the right course (course)
Don't let your mind don't play no tricks in the world; a lot of things to face
Your life in this world goes up and down
You gotta pay attention to stick around
Get this one thing straight in your brain
Set yourself free and break that chain

Break the chain, break it for me
Free your spirit, set your soul free
Break the chain, feel it in your hands
Break the chain so nothing can hold us back

Break the chain, break it for me
Free your spirit, set your soul free
Break the chain, feel it in your hands
Break the chain so nothing can hold us back

Your future is in your hands
Bass Bass
Break or fake or make your chain
And break that chain
Come on Come On
Break it Break it
Come on Come On
Break it Break it
Let nothing stand in your way

So get yourself together 'cause the music makes you better
You gotta rearrange, stand up and make that change
'Cause if you don't, then you won't and you never gonna see the perfect life
in reality
Can you see what I mean, can you hear I what I say
Can I break it Ah Yeah (Ah Yeah), Yes I may
On a mission we go, sunshine or rain
Set yourself free but you gonna break that chain

Break the chain, break it for me
Free your sprit, set your soul free
Break the chain, feel it in your hands
Break the chain so nothing can hold us back

Break the chain, break it for me
Free your sprit, set your soul free
Break the chain, feel it in your hands
Break the chain so nothing can hold us back
