Kiss me bliss me baby
Put love on the loose
Kiss me bliss me baby
You got nothing left to lose
Kiss me bliss me baby
Put love on the loose
Kiss me bliss me baby
You've nothing left to lose

This is the one, it is from the heart
A call to you to tear my life apart
Kiss me, bliss me, send me all that you got
Send me vibes, give me something hot
Understand, this is no game
No tame way to take a dame
Take a chance girl, run my way
Join my rave baby lets' play slave
A sweetheart, with a body of ice
You might be cold but I can see you're nice
Hardly baby, giving a guy a chance
Meanwhile baby I asking you to trance

I know what you feeling, I've been there before
I know what you feeling, boy, you're crying out for more
Kiss me, bliss, me baby, you've nothing left to lose
Kiss me, bliss me baby, put love on the loose

Maybe, maybe sometime baby
Sometime soon you'll be my baby
Can't hang around, got dreams to dream
So beam me up to the starship 'Scream'
We're talking skin, we're talking flesh
The kinky souls that makes you fell fresh
Maybe, maybe feel the fun
Sharing vibes just one on one
Sweetheart you have a heart of ice
It might be cold but I can see you're nice
Hardly baby, have I got a chance
Be my baby I'm asking you to trance

I know what you feeling, I've been there before
I know what you feeling, boy, you're crying out for more
Kiss me, bliss, me baby, you've nothing left to lose
Kiss me, bliss me baby, put love on the loose
I know what you feeling, I've been there before
I know what you feeling, boy, you're crying out for more
Kiss me, bliss, me baby, you've nothing left to lose
Kiss me, bliss me baby, put love on the loose

Nothing left to lose

Put your dancing shoes on
Yeah!
Kiss me bliss me baby!
I know what you're feeling
You're coming back for more
