Tuning into something wild

Like a comet from space
Like a slap in the face
You can feel it coming
Like a push in the back
Turning white into black
You're feeling something wild now!

You're feeling something wild now!

Hey precious, hey burning child
Time to tune to something wild
It's new, it's hot, it's all you're not
Don't turn back, it's all we've got
You're breathless, you're out of step
Time to learn just what is hip
If you think you're in a jumble
That's the way the cookie crumbles

Tuning into something wild
Tuning into something

Like a comet from space
Like a slap in the face
You can feel it coming
Like a push in the back
Turning white into black
You're feeling something wild now!

Wilder and wilder
You can feel it coming!
Well, maybe so-- we're in a mess
World gone wrong but don't forget
There's a groove that makes you wonder
How the hell they sample thunder
It's glorious, it's boom, boom, boom
Bless the noise that shakes the room
If you think we're getting milder
Brace yourself for something wilder
