25 Ta Life

And I remember  
Felt so in love  
Believed everything you said  
About a family  
Changed my life for the better  
Happiness erased the hate  
Joy over pain  
And I remember  
When you said you were pregnant  
I was thinking  
Yo I'm gonna be a dad  
And then you started saying some wack shit  
About how you weren't sure if you were gonna keep it  
Betrayal I felt  
Pain you caused me  
How could you throw it away

And I can't tell you it'll be okay  
And I can't say I'll ever feel the same  
Killer of our child  
I can't forgive  
In my eyes you have sinned

ABORT  
What we made  
ABORT  
What was to breathe

In my eyes you have sinned
