

I Wanna Know Your Name

2gether

I wanna know your name. I never knew
That love could put a spell on me
Then you walked into the room
Yeeaa, ooh!
What to do
Should i let my package show
Or should i try and play it cool

I've been pulling
I've been playing
For so long my heart's been waiting
To finally love someone like you, oh
Now my heart's anticipating
All the love we could be making
I gotta get this message through

I wanna know your name
I wanna know your name, yeah
I wanna know everything about you
Driving me insane
I wanna know your name
How can I let you know
how can I let you know
I wanna get right next to you
Checking the way you flow
I wanna know your name

Tell me now
Where have you been all my life
Or are you really just a dream

You know I'm down
Anything you want to do
So wont you come and go with me

I can't take it
Please don't fake it
Here's my heart now don't you break it
'Cause you know I'm all about you

I am itching
Can't deny it
there's no creme's out there
Can't fight it
What can I say what can i do

I wanna know your name
I wanna know everything about you
Driving me insane
Driving me insane
I wanna know your name
How can I let you know
I wanna get right next to you
Checking the way you flow
Checking the way you flow
i wanna know your name

I want you
To need you
I'd really like to please you
You got it
you got it
I need it
I need it
it's time that you believe it

You looking so fine tonight baby
I just wanna drive you around in my Viper
Yeeaa, we gonna speed through town
With the top down
Your legs, straddling in the seat
What's your name
What's your name
What's your name
I wanna know your name
What's your name
What's your name
What's your name
What's your name

I wanna know your name
I wanna know everything about you
Driving me insane
I wanna know your name
How can I let you know
How can I let you know
I wanna get right next to you
Checking the way you flow
Checking the way you
I wanna know your name
I wanna know your name
I wanna know
I wanna know everything about you
Driving me insane
Driving me
I wanna know your name
How can I let you know
how can I let you know
I wanna get right next to you
Checking the way you flow
I wanna know your name

What's your name
What's your name
What's your name
What's your name
