

## Sunny In England

3 Colours Red

In my head - I can get so far away  
The colours here are bright, not black or grey  
And my imaginary friends - we always get our way  
The madness never ends, and I just wanna stay  
But then  
I wake  
To seek  
Escape  
Escape.. again

Hey, hey, hey - this day has gone to fast  
With people like you, make it seem like it's the last  
Selfish, helpless and not a part of me  
You'll never make me what I don't wanna be

Your words  
Spread round  
The same  
Dead town  
Dead town.. and streets

You'll never see what I believe  
Till it's sunny in England.. yeah, yeah

And in  
The rain  
You soak  
The pain  
And grieve.. and all you do is grieve

You'll never see what I believe  
Till it's sunny in England.. yeah, yeah

Sometimes I lose this memory  
Ain't it good to be in England
