This Is My Time

3 Colours Red

Wasn't meant to be So long in silence But it took so long To belong I'm bored out of my tiny mind If this is all it is Then you're gone to heaven Race you to the high Openings I never knew of This Is My Time This Is My Time Wasn't meant to be So down underground Now I see the sun And I feel like something good is gonna happen It could always be That you're there And I'm here We'll play around And then Sleep until the nightime comes This Is My Time This Is My Time You wanna high You wanna fly Your feet are in the underground And different is indifference and Nobody's going to hear you boy But scream on dream on Wasn't meant to be So long in silence This Is My Time Coming home Coming home To you
