

# I Don't Wanna Know

3 Doors Down

Well I say a sad goodbye  
And then I move on  
Well baby my heart goes blind whenever you're gone  
And I know that you'll come back  
And that gets me by  
But holding you in my arms  
Oh well that gets me high

And I hope that this is never ending  
I just wanna see how it unfolds  
If you're ever gonna go, then never let it show  
Cause I don't wanna know  
Just say you'll stand right here forever  
Through every high and through every low  
If you're ever gonna go, then never let it show  
Cause I don't wanna know

And I don't care where you hide  
Or secrets you keep  
Well baby if this love's a knife  
Then bury it deep  
Cause you know my heart would break if you said goodbye  
So if you don't feel the same  
Then just tell me a lie

And I hope that this is never ending  
I just wanna see how it unfolds  
If you're ever gonna go, then never let it show  
Cause I don't wanna know  
Just say you'll stand right here forever  
Through every high and through every low  
If you're ever gonna go, then never let it show  
Cause I don't wanna know

Oh no no no...  
Don't wanna know

I hope that this is never ending  
I just wanna see how it unfolds  
So if you're ever gonna go, then never let it show  
Cause I don't wanna know  
Ooh, just say that you'll stand right here forever  
Through every high and through every low  
If you're ever gonna go, then never let it show  
Cause I don't wanna know
