Where My Christmas Lives

3 Doors Down

- Light me a candle, babe, I'm coming home
 Then leave it by your side where I belong
 I've been in this cold world for so long
 So light me a candle, I'm coming home
- R: I wanna feel the love that's in the hearts
 Of all the ones that make us who we are
 Thankful for the ones we have and what we have to give
 In these hearts of love, that's where my Christmas lives
- 2. Snow on the window, asleep by the fire And somehow these children never get tired Missing the ones that we wish were here Remembering the ones who look on but we don't shed a tear
- R: I wanna feel the love that's in the hearts
 Of all the ones that make us who we are
 Thankful for the ones we have and what we have to give
 In these hearts of love, that's where my Christmas lives
 In these hearts of love, that's where my Christmas lives
- *: All along the halls are ringing, choirs singing Christmastime is g

In streets the lights are streaming, children gleaming, Christmast \mbox{ime} is gone

Oooh, be still knowing Christmastime is gone Oooh, be still knowing

R: I wanna feel the love that's in the hearts
Of all the ones that make us who we are
Thankful for the ones we have and what we have to give
In these hearts of love, that's where my Christmas lives
In these hearts of love, that's where my Christmas lives
In these hearts of love, that's where my Christmas lives.
