

Be My Baby

3 Feet Smaller

The night we met I knew
I needed you so
And if I had the chance
I never let you go
And if you say you love me
I'll make you so proud of me
We make them turn their heads
In every place we go
So want you be
Be my little baby
Saving my darling
Be my baby now
I'll make you happy, baby
Just wait and see
For every kiss you give me
I'll give you three
And since the day I saw you
I'll left been waiting for you
You know I will adore you
Till it turn at ease
8x
So want you be
Be my little baby
Saving my darling
Be my baby now
So want you be ...
