kick yourself right in the ass and say hello to her
it's not good that you look like your feeling insecure
don't be too afraid to ask, from where she got this dress

REFRAIN:

you won't get another chance to ask her out
what she's all about, if she's right
don't be too choosy and listen to your heart
and find out, where she'll be at night
notice if she's conceited or open for everything
buy her a flower every hour and pay for her drinks
ask her what she really likes
if she prefers car or bike
