

## **Damn, We Need a Title For This Song**

**3 Feet Smaller**

Bloodshot eyes, my liver die's  
I see my girlfriend twice  
I'm sitting here, drink my third beer  
and i'm talking to a chair  
I think i'm drunk again  
Tequila is my best friend  
What's actually reality  
I sing in a band, but i've got one problem  
I forgot all the lyrics
