

Up To The Stars

3 Feet Smaller

June 4, an ordinary day
We are together, everything's ok
We go out, for a walk
We are together and we talk
About the things we really like
The hours pass and now it's night
We lay there, on the ground
And there is no one around
No sound
Looking up to the stars
Here with you
Looking up to the stars
Here with you
June 4, an ordinary night
We are together, everything's alright
We look up to the sky
And we want to fly
Away and leave it all behind
I'll keep this day forever in my mind
It's a beautiful night
The moon shines bright, I feel fine
