

Halloween

3

Deeper, deeper than God
The kid is just a sleeper
Look in his eyes
"I think he's got a fever,
Should I get his mom?"
No, go and get a scalpel
We're planting a bomb

I think we'll build a tower
Inside of his head
That topples every hour
Renders him dead
We'll put him in a blender
See how he does
Until he can't remember
The boy that he was

This is Halloween
It's Halloween
Oh oh oh oh
This is Halloween
Whoever you are...

Persistence: this is the key
Just lock him in the basement
Leave him to me
A thing goes wrong
In the darkness unseen
Push the faders up
Modify the gene

This is Halloween
It's Halloween
Oh oh oh oh
This is Halloween
Whoever you are...

Don't you know the sin is the same
For masking the blame
But you didn't want to...

Down in the valley below
There's people on fire
And they don't even know!

This is Halloween
Halloween
Oh oh oh oh
It's Halloween
Whoever you are...

Behind your mask
You know I'm trying
But 'm too scared to ask

Many thanks to you
Many things to do

And the beat goes on
Until the beat gets through
Teary eyes only see a blurry reality
And the beat goes on
Until the beat gets free
