

Skin crawls
Wind is walking
Through the walls
Now there's nowhere to run
Heart pray we'll be ok
Now there's nothing to say
But the damage is done

What keeps you up at night, my love?
What turns you on?
Dark shadows turn in the pale blue light
It won't be long

A thousand torches
Beaming in the distance
They bleed from the sky
And as I open my eyes
I see they've come to take me home

How now
Can we allow
We gotta stop 'em somehow
Body over mind
Oh no, now we both know
That there's nowhere to go
And the damage is done

What keeps you up at night, my love?
What turns you on?
Dark shadows turn in the pale blue light
It won't be long

A thousand torches
Beaming in the distance
They bleed from the sky
And as I open my eyes
I see they've come to take me home

And as I float through the sky
I know I've known it all along
And as the stars step aside
I know the battle rages on

A thousand torches
Beaming in the distance
They bleed from the sky
And as I open my eyes
I see they've come to take me home
And as I float through the sky
I know they've come to take me home
