

## Don't Dwell

311

Every time I get near your field of gravity  
You look so sad to tell me how could that be?  
ah- ah she said things I obsess  
I would never confess

ah- ah I told her don't dwell  
That will leave you in hell

Sometimes things that you're scorned for  
You should be adored for  
But like I told her don't dwell

I know my love that I look dilapidated  
But are you glad I made it  
Can you tell me that much  
ah-ah Why are you surprised  
I don't take my advice

ah-ah she told me don't dwell  
That will leave you in hell

Sometimes I need reminding  
Regret is so blinding  
But like I told me don't dwell

Everything is a choice  
Go ahead raise your voice  
Might as well forgive your self  
That means more than someone else  
Set you free break the shell  
To your demons farewell  
(Ooh na na na na) I tell you don't dwell
