

This song started as a rant against haters  
But that'd be giving in to the instigators  
If there is one thing I'd like to pull off  
When someone steps with hate all I do is just scoff  
You can't burn me (2x)

The same force that flows through every circuit  
The juice that's spent everytime you work it  
Every life form is based on this simplicity  
The soul that you have is electricity

You can't avoid that  
Evolution is fact  
We're all from the same Lucy  
Despite differences you see

I'm in disbelief at what people will believe  
All along I thought we had our hearts on our shirtsleeve  
If one thing I can say as a piece of advice  
Don't believe it till you see it and then see it twice  
It's so funny (2x)

The same force that flows through every circuit  
The juice that's spent everytime you work it  
Every life form is based on this simplicity  
The soul that you have is electricity

You can't avoid that  
Evolution is fact  
We're all from the same Lucy  
Despite differences you see  
A call out for unity  
In every province and city  
What do you think we've been saying  
Since we first started playing
