

Well everybody got opinion that's loud and unbending
I spend my time healing and mending together
It's a question of whether live positive, well I give
P-Nut is a brother that's always got a girlfriend
I say the lyrics that'll put you in a whirlwind
SA has the wisdom of a Nobel Laureate
I'm down for our days of glory
It's easy to do when you're up with Sexton
A rhythmic genius churnin' out the next one
But you know young bro I flow in this circumstance
You'll get your chance

Just take a moment to have a fit once in a while
Ya Know
I do it daily and like it but that's my style, here I go
In your face
Feels so good
In your face
Feels so good

Go SA
Trip this, yeah, get up on the tipness
Don't sweat it or let 'em set once you grab it
Come and get some to have and to flaunt
I know about it, know I got the news if you want
I pocket, I lock it, I sock it, your mind I rock it
Shell-fucking-shocked as well, maybe I groove and dammit I know it
Fucking up the truth, that's how I show it
In the half light, SA sounds, Nick's a night light
I'm rappin', he's snappin' on
Something you might like now
Don't frown if I choose to
Cut it up brothers you can't take it with you

Just take a moment to have a fit once in a while
Ya know, ya know
I do it daily and like it but that's my style, here I go
In your face
Feels so good
In your face
Feels so good

Go P-Nut, beat that thing

Eh, get this, my stream of consciousness is a sea
Much like Bukowski with a rage
Speaking to the page, beasts in the cage
Jumping off the stage, diving
Thriving, striving, for a better day SA

Beat back by flesh shattered doors
Bragging fists to the sky, you're feelin' high
Yes to live and die

Just take a moment to have a fit once in a while
Ya know, ya know, ya know
I do it daily and like it but that's my style, here I go

In your face
Feels so good
In your face
Feels so good
