

## Hey You

311

You've changed your tune any times  
Since we've met  
But I'll always recognize you  
You are part of me  
I feel you  
Whether in Jamaica or in the Angel City  
You are such a gift to me  
Ooooh

Hey you  
I gotta tell you my long time friend  
I think of all those years you saw me through tears  
And the good times that we spent

Hey you  
You're my constant companion  
You always let me explain just what I'm sayin'  
And we've just begun  
Uuuuh

I've got one wish for this music  
To be an uplift and I need an uplift to deal  
There are few songs all the people can sing along one song  
Come along and sing it for real  
Ooooh

Hey you  
I gotta tell you my long time friend  
I think of all those years you saw me through tears  
And the good times that we spent

Hey you  
You're my constant companion  
You always let me explain just what I'm sayin'  
And we've just begun  
Uuuuh

As I wander around, town to town  
Lost and found  
When so many others come and go  
(come and go)  
The sweetness (sweetness)  
Pulls me through

Hey you  
I gotta tell you my long time friend  
I think of all those years you saw me through tears  
And the good times that we spent

Hey you  
You're my constant companion  
You always let me explain just what I'm sayin'  
And we've just begun

Hey you  
You never turned your back on me  
When I gave up on myself

Hey you  
You never turned your back on me  
When I gave up on myself

Hey you  
What would the world be like?  
Without you around  
Music  
You're my constant companion  
oooooh
