

You're a power spot rotating  
Everchanging  
Transmitting like a radio wave  
Frequently feeling  
What's goin' on  
Times are weird all this static  
Things erratic  
Seems like we lost the magic  
See hear how clear  
Is inner quality  
A yin and yang type of thang  
Sacred geometry  
Ascending mad  
Energy crazy bad  
You're something NASA  
Fuckin' wish they had

Tune in for those who are wantin'  
Vision feel it from within  
Sing along  
Tune in for those who are wantin'  
Vision feel it from within  
You know

You're a star creator  
Soul craft generator  
Movin' through time and space  
Son you're a liberator  
But you're memory  
Has been erased  
The things you knew  
Misplaced check it out  
Babylon  
Life style we scorn  
Now we live again  
In LA Tokyo and New York  
Come on pay a fee  
Smoke your booty weed  
Put gas in your tank  
Keep you city bumpin'

Tune in for those who are wantin'  
Vision feel it from within  
Sing along (2x)  
Tune in for those who are wantin'  
Vision feel it from within  
You know
