So bloody Sunday
So I can lie
Falling Christians
Until I die

Why speak for yourself,
Yeah
So I can lie
Is Sunday what you wanted?
Until I
I die

What time is it
What time is yours
Watching 'cause it all falls downhill
I think I'm turning them both off
That is your lie

And it rocks out back and forth again
Watch all that cursing
It's like this through the year though
That is your lie

I can't remember
What they said was yours
It's only what you want
In this life of mine

So watch it roll
Right down the side
It's only what you wanted
In this life of mine

Who's ride is it,
Who's ride is yours
Better get, 'cause it all comes downhill
Better get a ride, soon they're all up
That is your lie

And it rocks out back and forth again
Watch all that cursing
It's like this through the year though
That is your lie

So watch it roll down
I'll only call
It's only what you want
In this hole of mine

So take your last cast
And burn the sky
It's only what you wanted
In this hole of mine

Last stop, last stop, last stop
I'll take right through what God said
I'll take right through the boiler

That is your lie

And these people poorly watch you
And please go watch yourself
It's like this through the year though
That is your lie

And it rocks out back and forth again
Watch all that cursing
It's like this all the time
They say, yeah

So who's laughing now?
So who's laughing now?
So who's laughing now?
So who's laughing now?
