

Just when you need it
Never see it in your torn world
And seems like a plastic world
One just like you, one just like...

All I am is all I'll be
Can't be much more than me
A deep-end failing tragedy
All I am is all I'll be

Broke, believe it, deceiving
In your world
And I knew him, someone falling
One just like you, one just like...

All I am is all I'll be
Can't be much more than me
A deep-end failing tragedy
All I am is all I'll be
Take inside and be more careful
Defeat loss and glare at fall
To get you off where I'm going...
Following all down
Follow it all down

So I've got you wrapped up...inside
So I've got you...inside
And plastic world, crumbles down...
One just like you.....just like

All I am is all I'll be
Can't be much more than me
A deep-end failing tragedy
All I am
Take inside and be more careful
Defeat loss and glare at fall
To get you off where I'm going...
Following all down
