

Break The Rules

360

Choose your own adventure
Do what you were sent for
Something that it was meant for
Look what you can end up
And when it ends up, who will you remember?
Me
Anyone whos met you
You will be the benchmark

Have fate, who are you to end?
I'll stop and remember from the fence
My integrity says: I can't get a job, never again
I do what I want and whenever I can
Cause we earn it and in second it ends

See if I turn off staying all night I wont know
If I don't, if I don't
See if I turn off staying all night I wont know
If I don't, if I don't
See if I turn off staying all night I wont know
If I don't, if I don't

There are some new faces
We change the game
All they care about is whos famous?
Game on
Who they kiddin?
Some will do like Bruce Wayne did it
And you can't fit it cause you're safe in it
Is it gonna be a new age?
Is he gonna be roun 2 chains?
How do you think I bought a new plane?
And how you'll gonna know if you aint in it?
Go and get prepared
F**k yeah, we aint never scared
I know who will get us there

See if I turn off staying all night I wont know
If I don't, if I don't
See if I turn off staying all night I wont know
If I don't, if I don't
See if I turn off staying all night I wont know
If I don't, if I don't

It's a cruel game, huh?
F**k what youve made up
Were trying to break some rules
Before the rules break us
F**k what youve made up
F**k what youve made up
Were trying to break some rules
Before the rules break us

It's a cruel game, huh?
F**k what youve made up
