

Feel like I'm in paradise, watch that purple waterfall
Got me feelin' rich, so rich, neva go and pour it all

Come see the cloud that I live in
My the couch that I sit in
My set is dope, but I didn't
There's another world that I've been in
Listen, when I'm, on and think I'm a king
Topple the world but ain't doin' a thing
When it's gone, I'm mentally sinking
I'm trying to look for Elizabeth Queens
Lemme get some sleep, and some resting pace
Got me stratching a lot and my head is not over without hip-hop beats
Eyes closed, we're psychos, great times goin' a-waste
We're mind blown, I think mind's goin' to space
Time wasted, so wasted, run away from me
But I'm jaded, no escapin' the escape I need
Time wasted, so wasted, run away from me
But I'm jaded, no escapin' the escape I need

Leanin', can't stay up, all round the main buzz
Purple, all of my paint brush, found a way to make pain stop
Made up a nocturnal breed, stay stuck in this perfect dream
I'm faded, but I wake up the second that the curtains bleed
And I'm slurring speech, so I think I have to learn to speak
Been a while, you ain't heard from me, but I stay drowned in that purple stream
Eyes lookin' like a when it burns the seat
But if I lose spit, then just let me know if my eyes close
I deserve the sleep

My purple waterfall slowly drip, I've said enough
We sink up a load, unquipped, I've got in love
My purple waterfall slowly drip, I've said enough
We sink up a load, unquipped, I've got in love

I'm feelin' wide awake, wide awake
I'm chasin' and draggin' her
Hard to paint, hard to paint
Come see the cloud that I live in
I said it stopped, but it didn't

My purple waterfall slowly drip, I've said enough
We sink up a load, unquipped, I've got in love
My purple waterfall slowly drip, I've said enough
We sink up a load, unquipped, I've got in love
