

## You And I

360

Yeah

When I was young I bought two wings  
Then I got myself airborne  
Felt the rush of this new thing  
The only thing that I cared for  
Would never of guessed it  
So strong I don't get affected  
It doesn't matter if you never get it  
Levels ahead will say level headed

Spent years in the sky  
Lucky that I'm here and alive  
'Cause I come down when you touch down  
You fear for your life  
How to really decide  
Get on course and then steer to the life  
In the sky for so long  
That'll make it a little unclear in your mind

Ain't no you and me, baby, life goes on  
Never speak again  
Say goodbye, so long  
You and I  
You and I

Found a way that I'll open doors  
Now I know that I'll grow for sure  
See it open my mind  
Take a second and let it open yours  
Had you here with me for so damn long  
But now I am a new me  
And now I know that's what I needed

I don't want to ramble on  
But I let go of everything  
That I never had a handle on  
Check the cloud that I landed on  
What the hell are you waiting for?  
Tell me something you're praying for  
Say the things that you're grateful for  
Feel it coming and wait for more

Ain't no you and me, baby, life goes on  
Never speak again  
Say goodbye, so long  
You and I  
You and I

You got it, white noise

Is it real or what?  
Eyes closed, I feel the buzz  
I'm know-en where freedom is from  
Mind open and clear as fuck  
I was feeling stuck  
Now I don't need no drug

Eyes closed  
So it doesn't matter  
Life's shown me what really does

Never felt love like that  
Now I'm sending the love right back  
I hit rock bottom  
Shake it off and just come right back  
I ain't chasing the rush I had  
Yo, I'm cool with the rush I have  
All it took was a little bit of time  
And a little bit of pain and just like that

Ain't no you and me, baby, life goes on  
Never speak again  
Say goodbye, so long  
You and I  
You and I
