

# I Don't Wanna

3LW

I dont wanna  
Wanna hear her name  
Wanna see her face  
Wanna know about every time you take her out  
Wanna be her friend  
Want her brand new benz  
Wanna see the ice that you bought her that shoulda been mine

I dont wanna hear about  
The girl you left me for  
Dont wanna understand  
Why you loved her more  
Been tryna figure out  
What she did that I left out  
Why is her name out of her mouth  
Every time I come around  
Cause I dont

I dont wanna  
Wanna hear her name  
Wanna see her face  
Wanna know about every time you take her out  
Wanna be her friend  
Want her brand new benz  
Wanna see the ice that you bought her that shoulda been mine

Why she always in my face  
Talkin bout her brand new place  
And the money that you spend  
She kept off her car payments  
Did she think I had the time  
Sit and watch the time in shine  
See your girl across the line  
It should have been mine  
And I dont

I dont wanna  
Wanna hear her name  
Wanna see her face  
Wanna know about every time you take her out  
Wanna be her friend  
Want her brand new benz  
Wanna see the ice that you bought her that shoulda been mine

What makes you think I wanna hear about you and her  
What makes you think I wanna know whats going on  
Talking about her like I really dont hurt

I dont wanna  
Dont want to hear you say  
I dont wanna  
Dont wanna see her face  
I dont wanna  
Dont wanna hear her name  
I dont wanna  
I dont wanna

What makes you think I wanna hear about you and her  
What makes you think I wanna know whats going on  
Talking about her like I really dont hurt  
[Repeat until fade]
