

# Not This Time

3LW

Not this time, not this time  
Not this time, not this time  
Not this time, not this time  
Not this time, not this time

You told me that my love was all  
Good for you  
But when I'm not around  
There's always someone new  
With all my trust  
And every little kiss  
I can't believe you played me out  
Like this

All my friends told me  
I was not your only  
Guess my heart was wrong again

How can I be with someone like you?  
After all of the things that you put me through  
How could you lie, lookin' straight in my eyes  
Sorry baby, not this time

Not this time, not this time  
Not this time, not this time

The other night when I was out  
With my friends  
When we were chillin' at the club  
When you walked in  
Said you were stayin' home  
Here you come and not alone  
Tell me what the... is goin' on

Baby what goes around  
Always comes back around  
She'll be the one to bring you down

How can I be with someone like you?  
After all of the things that you put me through  
How could you lie, lookin' straight in my eyes  
Sorry baby, not this time

Here I am, all alone  
Wondering where it all went wrong  
Guess my love was not enough  
For you to stay

Can't believe you did me wrong  
Shoulda known, so now I'm gone  
All the things I did for you  
All the things you put me through  
Tellin' me you wanna stay with me  
But all along you was playin' me  
But all the games have gotta stop this time  
It worked before, but not this time

With all my trust  
And every little kiss  
I can't believe you played me out

How can I be with someone like you?  
After all of the things that you put me through  
How could you lie, lookin' straight in my eyes  
Sorry baby, not this time
