

# One More Time

3LW

Lullabies, butterflies  
Sad goodbies, make me cry  
Oh my  
They all remind me of you  
In the trees, autumn leaves  
Birdies tweet when you look at me  
They sing a song about you  
Even the clouds could see it's over  
They could feel my hurt inside  
And when the sun comes out tomorrow  
Will I feel alright

Come back to me, dry my tears for me  
Want you to hold me one more time  
Take my only, be my only  
Come back for me one more time

Teddy bears, rocking chairs  
It's not fair for both of us not there  
To share these treasures with me  
Reflection shows that I'm alone  
On my own waiting by the phone  
But I know you won't call for me  
Even the clouds could see it's over  
They could feel my hurt inside  
When the sun comes out tomorrow  
Will I feel alright

Come back to me, dry my tears for me  
Want you to hold me one more time  
Take my only, be my only  
Come back for me one more time

Even the clouds could see it's over  
They can feel my hurt inside  
When the sun comes out tomorrow  
Will I feel alright

Come back to me, dry my tears for me  
Want you to hold me one more time  
Take my only, be my only  
Come back for me one more time

Come back to me, dry my tears for me  
Want you to hold me one more time  
Take my only, be my only  
Come back for me one more time

One more time  
One more time  
One more time

One more time time time  
Time

One more time
