

# I Appreciate

3T

[Verse:]

Do you remember the time  
When I first met you it was love at first sight  
Like a shooting star above  
Girl I made a wish hoping we would fall inlove  
And here we are today  
As we celebrate another year together  
I love you more than yesterday and as the time goes by baby I just wanna  
Say that I appreciate

[Chorus:]

Everything you do for me  
And every time that you are there for me  
The fact that you believe in me  
Girl I appreciate you loving me  
Those moments when my strength was gone  
I couldn't quit cause you kept holding on  
Today's our anniversary and I appreciate you loving me

[Verse:]

To know that you're here by my side  
You're so beautiful I cherish you forever  
Nothing else would change my mind  
Girl I'm stuck on you  
Gonna spend my life with you  
(Even when the days are dark and cold, girl you always there for me, always  
By my side, keeping me warm)  
Alone I'll never be again, cause in you I know I got a friend and I apprecia  
te
