Mmmm mmm How you like it now How you like it now, baby You need me You need me too, yeah I can't hide from things that you do to me Even though you deny every girl with me You say we're friends when I say that we're much more And how could I let go of What I've been looking for I can't let you take control of me (Oh no) I've gotta get you (no, no) To give me what I need I need sexual attention Baby I should mention Is something that I need from you I wanna love and I need you to need me too Oh, sexual attention baby I should mention Is something that I need from you (something that I need from love) I wanna love and I need you to need me too (Oh) I can't see what you wanna get from me I give you good love and more (yeah, everything) Can you give me one reason Why we should be apart If I mean anything to you Tell it to my heart (oh, yeah) I can't let you take control of me (oh, no) I've gotta get you (no, no) To give me what I need I need sexual attention Baby I should mention Is something that I need from you I wanna love and I need you to need me too (I need, I need, I need) Oh, sexual attention baby I should mention (sexual attention) Is something that I need from you (something that I need) I wanna love and I need you to love me too (I wanna love, I need to love, hey) What I want from you is

(sexual I need from you, yeah) What I need for love right now

(me to you, me to you, me to you to me, yeah, me, yeah)
Sexual attention baby I should mention
Is something that I need from you
I wanna love and I need you to need me too
(said I need from you)

Oh, sexual attention baby I should mention
Is something that I need from you
I wana love and I need you to need me too
(girl you know I need you to need me)
Sexual attention baby I should mention
(sexual attention)
Is something that I need from you
(girl you know I need from love)
I wanna love and I need you to need me too
(girl I need love from you)
Oh, sexual attention baby I should mention
Is something that I need from you
I wanna love and I need you to need me too
