

Colorblind

4 Strings

You're half a world away
I'm trying to remind myself of what we said that day
Sunlight turns to gray
I got stuck another way that took me far away, I'm colorblind

Your eyes got me thinking, all the common time
And all is gray I wish, I was colorblind
'Cause all that I've been missing, is another deep blue sky
'Cause you've left me, colorblind
Colorblind

Here's another day
Forgive me if I bother you but you made me out this way
And if I'd be all strain
It's just because you've left my faults of waiting for that day
I'm colorblind

Colorblind

Your eyes got me thinking, all the common time
And all is gray I wish, I was colorblind
'Cause all that I've been missing, is another deep blue sky
'Cause you've left me, colorblind
