

Take Me Away

4 Strings

Shining light
Another day turns in to rain
Eternal fight
I waited all my life

Take me away
Million miles away from here
Take me away
Find the place for you and me
You taken me higher
Highest I could be
You take me away
Forever you and me
Take me away

The tears I cried
Kept the morning shined
I needed time
To make up my mind

Take me away
Million miles away from here
Take me away
Find the place for you and me
You taken me higher
Highest I could be
You take me away
Forever you and me
Take me away

Just take me away
Million miles away from here
Take me away
Find the place for you and me
You taken me higher
Highest I could be
You take me away
Forever you and me
Take me away
