

## 2 Fisted

40 Below Summer

Here we come gonna shake up the earth  
Here we come gonna kick up some dirt  
Here we come hide your women and your weed  
Here we come and we spread like disease  
Here we come with the funk rain sleet hail snow  
Here we come with the funk its time to let you know  
Here we come fill the air like a shotgun blast  
Kick in your face than take out the trash

Why cant you believe in the words don't you ever listen  
Now do you believe that we won't go away  
What can you believe in the words we won't go away

Step off I can't take it step off I'm deranged  
Step off I can't fake step off before I go Insane

Blowing up like you knew that we would  
River rat style gonna give it to you good  
Running ya down when I take to extremes  
Whipping that ass like Austin 316  
Who can ignite give it to ya right  
Shake up the ground all God damn night  
Kapow how ya like me now  
Burning hot going off like kaklow, kaklow

Why cant you believe in the words don't you ever listen  
Now do you believe that we won't go away  
Why can't you believe in the words we wont go away

Step off I can't take it step off I'm deranged  
Step off I can't fake step off before I go Insane

Step off I can't take it step off I'm deranged  
Step off I can't fake step the fuck off

Nothing you could take from me  
Even if you make me bleed, I won't drop  
Step off - you can't take me down  
Leave you buried in the ground I wont stop [Repeat]  
I'm straight at you 2 fisted.

Aw yeah, gonna flex for you  
This is the way I bring wreck and snap necks in two  
Bad ass, crazy bastard  
One, two, mike check, the lyrical assassin  
Heads up when the sound comes crashing  
Like a train wreck to the heads that we done smashed in.  
Hard like the man of steel  
You steppin up you get crushed beneath the wheel (what?)  
Ya better change your direction  
Step back and get some protection  
You don't want none of me  
I see that look in your eyes like I'm a side show freak
