

All About You

40 Below Summer

Hey baby, I'm choking (I'll help you breathe)
Hey baby, I'm smoking (I'll set your mind at ease)
I feel you inside (what do you want from me)
I want you to open wide
I'm needing to touch you (do you fiend for me)
I'm needing to fuck you (would you bleed for me)
And you wanted it all - Before I fall
Hey girl, better get up and move -
Watch that ass, cause I come to groove
When I tasted you, then I wanted more -
Inside you I was reborn
Lay down and you injected -
Fill my veins up - I've been infected
Your disease runs through me -
Fills me up every time you do me
It's all about the pain you put me through -
It's all about the pain you put me through -
It's all about the pain you put me through -
It's all about you
Hey woman, come thrill me (all night long)
Hey woman, come fill me (I'll make you strong)
I can feel the way you (The way I what)
You touched me with betrayal (and I tear you up)
I loved you, you moved me (I'm your little girl)
Your very touch consumes me (step into my world)
And then you'd rape me -
And then you'd disgrace me
Open up and heed my words -
Listen up as I kick the verbs
Walk the line of love and disturbed -
You're gonna get just what you deserve
I don't want you, I don't need you -
I love you, but I don't believe you
You're just a waste of time -
Get the fuck out of my mind
It's all about the pain you put me through -
It's all about the pain you put me through -
It's all about the pain you put me through -
It's all about you
I can't kill all this pain - you know I burn in hell -
Can't refrain I just might as well go insane inside
I'm screwed - you ripped my heart in two -
There's nothing that I can do All the shit you put me through -
I still love you (do you really)
It's all about you (it's all about me)
I'd do anything for you
(bitch)
