

# Breathless

40 Below Summer

You believe every word I say  
And always took the time to understand  
You took my breath away  
Is that you slipping right through my hands?

Just like a shooting star  
Falling from the sky  
I wait for you to land

Fly away, don't shut me out  
Cause I can't be without you  
Run away, come with me  
Cause I can't be without you

When I wake up everyday  
I need to know you're not so far away

Just like a shooting star  
Falling from the sky  
I wait for you to land

Fly away, don't shut me out  
Cause I can't be without you  
Run away, come with me  
Cause I can't be without you  
Be without you  
Be without you

Open your eyes and open your life and just...

Fly away, don't shut me out  
Cause I can't be without you

Fly away, don't shut me out  
Cause I can't be without you  
Run away, come with me  
Cause I can't be without you  
Cause I can't be without you
